

900 & International Blocks

The 900 restriction is available to all customers free of charge within 60 days of installation of new service. A service order charge of \$11.20 will be charged for **adding** or **removing** the 900 block (no monthly recurring charge). The following form must also be completed before removing the 900 block.

For the International block the order charge to **add** or **remove** applies at any time after the initial installation of service. Initial installation is the point when the service is working (not when service order closed).

Both blocks may be added at the same time for one service order charge.

Member #: _____

I request that Randolph Telephone Membership Corporation add/remove the following Toll Restriction option(s) from the telephone number listed above:

_____ 900 Number Restriction

_____ International Toll Restriction

I understand that upon removal of the Toll Restriction option(s) checked above, I will be responsible for all charges incurred for calls made from the above listed telephone number and that no credit for these calls will be given by Randolph Telephone Membership Corporation. I further understand I will be billed a one-time charge for the adding or removal of the restriction option(s).
